PERSONAL PROFILE

I am a dedicated and passionate professional with extensive experience in academic lecturing, management, and leadership within the field of biology. My robust academic background is complemented by my ability to multi-task and fluency in three languages. I possess hands-on experience in lab-based activities, specializing in genetics, molecular biology, and biotechnology.

My expertise extends to education, research, and project management, where I have demonstrated strong leadership and organizational skills. I am committed to advancing the conservation and welfare of animals and plants through biotechnology, striving for excellence in practice and research. My career goal is to leverage my knowledge and experience in biology to contribute significantly to this field, utilizing my academic prowess and practical skills to drive innovative solutions and impactful projects.

EDUCATION

Postgraduate Institute of Agriculture, University of Peradeniya, Srilanka	2023/24
Reading- M.sc in Biotechnology
